NATIONAL DEMONSTRATION

URGENT ACTION NEEDED TO STOP THE WALL

This year, Ariel Sharon plans to finish the construction of the Apartheid Wall that is annexing Palestinian land.

Under cover of his Gaza withdrawal plan, which will leave Israel with total control over the borders, airspace and ports and simply confine the Palestinians to a massive open-air prison, Ariel Sharon is systematically entrenching the occupation of the West Bank and East Jerusalem. The Wall is an integral part of this plan, alongside the expansion of illegal settlements and further construction of Israeli-only roads to carve up the West Bank, with Palestinians confined to ever shrinking bantustans.

Women and children have died at Israeli-controlled checkpoints because they are denied access to get to hospital. Ariel Sharon is pursuing a programme of house demolitions, confiscation of

land, and destruction of Palestinian agriculture. Palestinians are being forced out of their homes and villages.

This process is most acute in East Jerusalem. In the presidential elections only a fraction of those entitled to vote were allowed to by the Israelis, and unrelenting pressure is being put on the Palestinian population to leave.

The Palestinians need your help NOW to put maximum pressure on the British government and the international community to ensure that international law is upheld and that Israel finally withdraws from all of the Occupied Palestinian Territories.

Join us on 21 May to call for international law to be upheld and for the British government to press Israel to withdraw immediately from the Occupied Palestinian Territories.
