

Promotional material request form

The following list of promotional materials aims to provide representatives and activists with the resources to build and promote the identity of the TSSA.

When considering material to order, think about how you will distribute the material; the number of buildings, offices, stations or workstations. Identify whom else you might involve to support your efforts and how the raising of the profile will inter-link with your activity, like holding a workplace meeting for example. Please indicate by ticking the box that you have considered how you might distribute this material

Tick the items and quantity required and return to the London Head Office, the material will then be dispatched at the earliest opportunity.

Item	Requested	Quantity
